SUMMARY

A Dynamic and Dedicated Level 3 BTEC graduate with a strong passion for problem solving and delivering effective IT solutions. A 2025 WorldSkills UK Web Development Finalist, I excel in translating design concepts into responsive, high-quality applications. Committed to continuous learning and delivering innovative solutions

EDUCATION

Bedford College   **Sept 2023 – June 2025**
Level 3 BTEC in Advanced Computing   *Bedford UK*

- **DDM (Distinction)**

Bedford College   **Sept 2023 – June 2025**
GCSE Maths and English   *Bedford UK*

- **GCSE Maths – 6**
- **GCSE English – 4**

Sacred Heart College   **Sept 2016 – June 2021**
International GCSE   *Lagos, Nigeria*

- International GCSE with 4A's, 3B's and 2C's

PROFESSIONAL EXPERIENCE

Full Stack Developer   **Jan. 2025 – March 2025**
*Shop Station (*https://shopstation.ng*)*   *Remote*

- I developed and maintained an e-commerce platform for Shop Station, a face and body care company that sells curated range of products.
- I ensured responsiveness and smooth user experience ensuring seamless navigation and intuitive user experience.

Full Stack Developer (Frontend Focused)   **March. 2025 – June 2025**
Learn Easy (https://www.learnwithease.org)   *Remote*

- I worked closely with a backend developer to develop a full-stack educational website using NextJs, enabling secure user registration, course selection, secure payment and seamless integration and functionality.
- In terms of the performance, I reduced page load times by optimising images and leveraging lazy loading techniques, resulting in a 30% increase in sales.

WORK EXPERIENCE

Sortation Operative   **May 2023 – Nov 2024**
Amazon STN8   *Bedford, UK*

- I accurately scanned customer packages with the use of handheld scanners and sorted the packages to their correct destination.
- I consistently complied with safety protocols at Amazon STN8 to prevent incidents and promote a secure workplace.
- I collaborated with team members to maintain efficient operations during busy shifts and improve workflow.

Volunteer Computer Technician   **May 2024 – Aug 2024**
Bedford College   *Bedford, UK*

In my role as a volunteer computer technician working with the IT team in Bedford College, I did the following.

- I reset and updated old devices for the new session
- Printing, Scanning and Photocopying documents.
- Inventory management – organising hardware and tools into their assigned locations.

Sales Assistant   **Jan 2023 – May 2023**
Samis African Foods   *Northampton, UK*
- I scanned customers items using a barcode scanner to process the sales transactions efficiently.
- I provided an excellent customer service by greeting customers warmly as they approached the checkout.
- For customers that had inquiries related to pricing and discounts, I helped ensuring the needs of the customers are met
